

Cedar Hills Garden Club - October Bulletin

Fall is here. Two reminders before the weather turns.

1. Garlic planting workday, late October. Bring a trowel and gloves. We will set out the hardneck cloves along the demonstration bed and mulch with straw.
2. The treasurer's report for the quarter is posted on the board. Dues stay flat into next year. Thank you to everyone who helped at the plant sale.

Tip of the month: lift and divide overcrowded perennials now so the roots settle before the first hard frost. Label everything. Future you will be grateful.

Next meeting: first Tuesday, 6:30 PM, Cedar Hills Community Center.
